Forest Hill  
London

To Whom it May Concern:

In October and November 2008, we appointed Miles Griffies of Red Squirrel Architects and Trakia Building Services to undertake a major building project at our property.

The work involved changing the layout of the back half of our house which included significant structural modifications, moving the bathroom and kitchen, rewiring, new plumbing work, installing a new bathroom suite and kitchen and putting in a large three-fold external door.

The initial consultation and planning process with Miles was smooth and efficient. He listened to our requirements and the final plans we received were exactly what we were looking for. The added benefit that using Miles brought to the appointment in addition to the design was managing the payment schedule and dealing with the final, very minor, snagging list.

Kosta and his team's work was of a high standard. They were efficient and kept the disruption and mess to a minimum. We are very pleased with the quality of the work, and the end result.

We have already appointed Trakia Building Services to do some other work within our property and have no hesitation in recommending Miles and Red Squirrel Architects to future clients.
